Pearce Recognized by *St. Louis Business Journal* for Outstanding Work on Job Growth and Economic Development

BELTON_ Republican State Senate Candidate for the 31st District David Pearce was honored today by the *St. Louis Business Journal* for his many contributions as a legislator in the areas of job creation and economic development.

“As a lawmaker, I have worked hard to ensure that we are doing all we can to create high- paying, high-quality, family-supporting jobs and while we have had significant successes I look forward to doing even more as the next Senator from the 31st District,” Pearce said. “I would like to thank the St. Louis Business Journal for recognizing these efforts and look forward to continued success on behalf of hard-working families across Missouri and the entire 31st Senatorial District.”

The *St. Louis Business Journal* recognizes those state legislators who have worked throughout the past session to help advance an agenda of job growth and economic development for the St. Louis area and across the entire state of Missouri through their annual awards. Pearce received his award on Friday, June 20, during an awards program in the Old Post Office, 815 Olive Street, St. Louis.
