Pearce Receives Major Endorsement from Missouri Chamber of Commerce

BELTON _ In another example of his strong support for creating high quality jobs and boosting the state's economy, Republican State Senate candidate David Pearce today received the endorsement of the Missouri Chamber of Commerce and acknowledgement for having a perfect 100% voting record from the National Federation of Independent Business Owners (NFIB).

"I have dedicated my legislative career to finding ways of creating high quality jobs by creating new opportunities for individuals and Missouri businesses and I am truly grateful that both the Missouri Chamber of Commerce and NFIB have recognized those efforts," Pearce said. "I am committed to Missouri's workers and our business community and will continue to work for them as a member of the Missouri Senate."

Pearce is the only Republican candidate for the 31st Senatorial District to receive the Missouri Chamber of Commerce endorsement. He also is the only Republican candidate to have a perfect 100% voting record by NFIB over the past two legislative sessions.

"Representative David Pearce has an outstanding record that speaks for itself, when it comes to job creation, there is no one who understands this issue better," said Dan Mehan, President of the Missouri Chamber of Commerce. "The Missouri Chamber of Commerce is pleased to endorse Representative Pearce. He will do an outstanding job in the Missouri Senate for the hard working people of the 31st Senatorial District."

"David Pearce has a deep commitment to the survival and success of Missouri's small-business economy, which is evident by his perfect 100% voting record," said Brad Jones, National Federation of Independent Business --Missouri State Director. "NFIB is the voice of small business in Missouri and we are thankful for the support that David Pearce has shown the small business community."

Pearce has a variety of experience as a lawmaker pursuing the goals of job creation and economic expansion including serving as the vice chairman of the Job Creation and Economic Development Committee. He is also the past Director of the Warrensburg Chamber of Commerce and sponsored and passed into law, House Bill 2058, the major jobs expansion bill from this past legislative session.
